Software Update

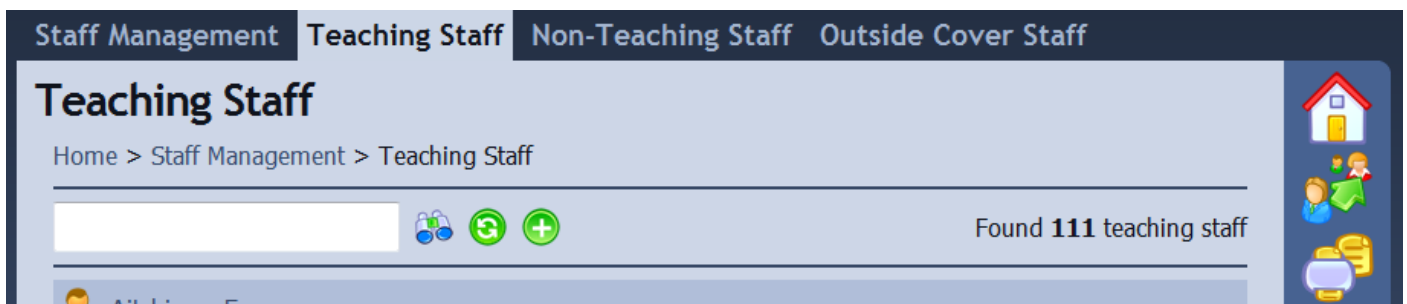

Build: 2010-09-15

Update: #0006

Affected Assemblies: *UserManagement*

Update Type: *Adding a new member of teaching staff*

You now have the ability to create additional members of teaching staff. It's easy! Simply login as normal, and select "Staff Management", then "Teaching Staff". From the menu bar above the teaching staff list, you will see a small green circle with a "+" inside it. Click it to create a new teaching staff record.

When you click the button, a new record is automatically created in the database for you, and you are then taken to the new staff member's editing page, where you can then begin normally changing details as required.

you have to do is modify the four fields as appropriate below, and hit the 'Update' button. Easy usey!

Title	<input type="text"/>
Forename	<input type="text"/>
Surname	<input type="text"/>
Holding Name	<input type="text" value="New staff member"/>

 **New Staff Member Created!**
Use this page to begin applying details for this new staff member.
